

2008 Massachusetts Reporting Instructions – American Eel

In years past, holders of an American Eel endorsement were required to submit catch reports by January 31st of the following year detailing daily harvest information to the Massachusetts Division of Marine Fisheries. Starting in 2008 monthly catch reports will be required. The report has changed to reflect a more standardized trip-level format. Monthly reports are being required to make Eel reports consistent with other fisheries.

REPORTING REQUIREMENTS:

Permit holders with an American Eel endorsement must only report their fishing activity for American Eels on this trip level report. Please read these instructions carefully. A detailed example is on pages 3 and 4.

Reports must be submitted monthly by the tenth of the following month. Reports must be submitted for each month whether you fish or not. For months without fishing activity on the above endorsement, indicate the month(s) in the space provided at the top right of the form and check the box indicating “Did Not Fish” at the bottom left of the form. You may report multiple months of no fishing activity on one sheet. If you know you will not be fishing for Eels for future months, you may submit reports in advance.

You must sign and date each report. Reports can be mailed or faxed to MADMF’s Gloucester location. The address and fax number are listed below and on the bottom of the report forms.

A monthly record is maintained by the Division with all pertinent data and timeliness of reporting. Failure to report may delay or result in the non-renewal of your permit for 2009. When you enter the information on the form, **please print clearly and legibly**. If we cannot read the information, it will be returned to the permit holder for completion. We will closely monitor this reporting process and enforce all of the pertinent regulations.
